Here's a video of a terrarium in a jar that hasn't been opened in 12 years. Despite not having any interaction from it's creator life flourishes, lives and dies. There's food and water in the jar and everyone's needs are provided for.
I really think there is something Earth-like in watching this video. The way the condensation rises up to the top of the jar as if it were the firmament and then rains back down is eerily familiar.

You don't even understand the nature of things you supposedly concern yourself, much less the nature of consciousness itself. You play according to the Kikes' rules like it's 2015 and we're waking up the sheep. You are clinically narcissistic sheep with nothing to say.

Die kike shill. You fucking flat earthers are the biggest slide threading and thread destroyers on this site. Whenever anywhere there is a thread that is discussing serious conspiracy and getting somewhere understating you niggers literally raid the thread with your flat earth fucking trash. I hate you all, you are all JIDF shills and you are evil. And your subversion isn't working, people are waking up to your trickery.

if you're going to be that guy that obtusely makes no effort to see the wisdom of what he's told, clamoring and stomping around like an immature knowitall bull-in-a-china-shop, with the brash hyperbolic bristling tantrum attitude, then i'm really not interested.

you can read.
you can think.
you figure it out.
